

**FINALLY. A NEW INNOVATIVE DESIGN THAT  
MAKES HUB AND LATERAL INSTALLATION  
QUICK AND EASY.**

# Hub n' ALL

- Unique, patented, all-in-one folding design.
- Hub and laterals come completely assembled.
- Riser attaches to Hub n' ALL before inserting into the tank.
- Laterals easily lock into position from outside the tank with an S-hook tool.
- Hands never have to enter the tank.
- Unique lateral slot design creates a more vigorous and efficient back wash flow.
- Slots in end plugs provide additional flow to the harder-to-reach sides of the tank.
- Tapered laterals assure good flow all the way to the slotted end plugs.
- Strong, glass-reinforced ABS material.
- Fits 4" tank opening and works with either 1-1/4" or 1-1/2" riser pipes.
- Assembly can be removed from tank in one piece. Makes removal quick and easy.
- Slot width 0.012".
- 80 GPM @ 6 PSI with just six laterals.
- **Cuts installation time and labor costs by as much as 80%.**
